Summary

Fresh graduate in Informatics from Universitas Amikom Purwokerto with hands-on experience developing **web**, **mobile**, and **game applications** through academic and personal projects. Proficient in **TypeScript**, **React**, **Next.js**, **Node.js**, **Laravel**, **Flutter**, **MySQL**, and **Git/GitHub**, with additional experience in **C#** and **Unity Engine**. Committed to delivering **scalable and maintainable solutions** using software development best practices. Eager to apply my technical skills, learn new technologies, and contribute to innovative **software** and **game development** projects.

Projects

TechDrop *2026*

- Educational game for learning computer hardware.
- Designed and developed a **desktop-based educational game** with **Unity Engine** using the **GDLC** methodology.
- Built **interactive learning materials**, **assembly simulations**, and **game-based exercises**; validated via **Black Box** and **Beta testing** (**85% expert**, **90.6% user** scores).

News5 *2025*

- Laravel-based news portal.
- Developed a **web-based news portal** with **Laravel**, featuring **CRUD**, **role-based access control** for editors and journalists, and article publication workflows.
- Implemented **data validation** and **interactive comments and replies** with **Livewire**.

Capit Store *2025*

- Next.js-based e-commerce application.
- Developed a **web-based e-commerce app** with **Next.js**, featuring **user authentication**, **role-based access**, and **product and inventory management**.
- Integrated **MongoDB**, **shopping cart**, **order processing**, **address management**, and **automatic stock updates**.

JBAG *2024*

- Mobile game account marketplace application.
- Designed and developed **JBAG**, a **mobile app** for game account trading, with **Flutter** and **Dart**.
- Implemented core functionality and **testing**; managed source code with **Git** and **GitHub**.

ParkEazy *2024*

- Desktop parking management application.
- Developed a **desktop-based parking management app** with **C#/.NET Framework** and **SQL Server**.
- Implemented **CRUD operations**, **user authentication**, **vehicle and space management**, **reservations**, and **parking status updates**.

Petualangan Si Tupat *2025*

- 3D animation production.
- Contributed as **Producer**, **Rigging Artist**, and **Rendering Artist** on a 3D animation.
- Performed **character rigging** and **rendering** with **Autodesk 3ds Max**, **Mixamo**, **Adobe After Effects**, **Adobe Media Encoder**, and **Adobe Photoshop**.

"Pozard" Character IP *2024*

- Character intellectual property (IP) development.
- Developed the **"Pozard" character IP**, creating its **character profile**, **background story**, **synopsis**, and **visual identity**.
- Grounded in **SWOT analysis**, **IP strategy**, and **market segmentation** for cross-media development.

Organizations

Kuliah Kerja Lapangan (KKL) *2025*
Publication, Documentation, and Decoration Division (PDD)

- Managed and published all **photo and video documentation** of the program, keeping the KKL 2025 publications organized.
- Designed and produced **visual assets** and **publication materials** for the event using **graphic design software**.
- Coordinated with the committee team so that information and visuals were shared smoothly and on time.

Information Technology Research And Multimedia (INMED) *2023*
Programming Division

- Built **programming** and **software engineering** competencies through hands-on learning activities and projects in the Programming Division.
- Applied programming concepts across **web**, **desktop**, and **mobile** application development.
- Collaborated on team projects through **software design**, **implementation**, **testing**, and **evaluation**.
- Shared knowledge via **technical discussions** and collaborative project development.

Education

Universitas Amikom Purwokerto *2022 – 2026*
*BS in Informatics (**S.Kom.**), Banyumas, Central Java*

- GPA: 3.78/4.00 (Cumlaude).
- Relevant coursework: Web Programming, Mobile Programming, Mobile Game Programming, Database Systems, Software Engineering, Operating Systems, Computer Networks, Artificial Intelligence, Machine Learning, Natural Language Processing, 2D & 3D Animation.
- Thesis: "Implementation of the Game Development Life Cycle (GDLC) Method in Developing an Educational Game for Introducing Computer Devices Using Unity Engine."

SMK Ma'arif NU 1 Paguyangan *2019 – 2022*
Vocational High School in Computer and Network Engineering, Brebes, Central Java

Certifications

Desktop Office Training (DOT) *2025*
Applied Microsoft Office

English Certification Program *2025*
Amikom Purwokerto University

Certificate in Artificial Intelligence Associate (CAIA) *2025*
Logical Operations

Skills

Frontend: HTML5, CSS3, **JavaScript**, **TypeScript**, **React.js**, **Next.js**

Backend: Node.js, **Laravel**

Databases: MySQL, **MongoDB**

Mobile & Game: Flutter, **C#**, **Unity Engine**

Design & Multimedia: Adobe (Photoshop, Illustrator, After Effects), CorelDRAW, Autodesk 3ds Max

Tools & Productivity: Git, GitHub, Postman, Microsoft Office (Word, Excel, PowerPoint), Google Workspace (Sheets, Docs, Slides)

Languages: Bahasa Indonesia (Native), English (Intermediate)

Soft Skills: Analytical Thinking, **Critical Thinking**, **Problem Solving**, AI Literacy, Adaptability, Continuous Learning, Attention to Detail.
